Speaker:
- Dr Kelvin Tan
  Senior Lecturer, Master and PhD of Gerontology Programmes, S R Nathan School of Human Development, Singapore University of Social Sciences (SUSS)
- Dr Kim Heeyoung
  Associate Faculty, SUSS

Introduction

Ageing can be understood from a multi-perspectives approach. Some key dimensions like integrated care support, technology, ethics, cultural, economic and social.

Many of us have read about an ageing challenges and issues, but there are also opportunities in the longevity economy. The rising ageing population trend heralds vast business implications, the baby boomer is a significant number of consumers who will retire and longer life expectancy. Long-term care value chain services are high-growth markets for this cohort of consumers in Asia. Additional examples are retirement villages, innovative technology for personalised care, travel and leisure-related business.

By embracing a multi-disciplinary and inter-disciplinary teamwork, the future of ageing can be transform with better quality of life and social solidarity for older persons, their family and the community.

Objectives

By the end of the workshop, audience should be able to:

- Understand the opportunities and challenges in the longevity economy
- Adopt a holistic approach of person-centered care with multi-disciplinary approach
